2. Logistic Notes:

a) Units needing to utilize CBTC's Vault or Ammo Holding Area need to make prior arrangements with SSG Phillip Harrell, 919-620-5400 ext 17315 or SFC Vicky Johnson, 919- 620-5400 ext 17311 to ensure space is available and to coordinate times that the Vault and Ammo Holding Area will be available. Units will also need to bring chains and locks to secure their weapons.

b) Units utilizing training areas and facilities need to bring supplies (paper towels, soap, toilet paper and cleaning supplies).

c) Ranges 1/2, 4 and 8 now have small latrine buildings with flushable toilets.

d) Chemical Toilets: Camp Butner has two chemical toilets located on Ranges 3, 4, 7, Land Navigation/Obstacle Course/Rappel Tower and Kitchen Area A& B. Camp Butner has one chemical toilet located at Range 10, MOUT Site, POW Camp and NBC Chamber. Each of these chemical toilets are under a service contract with Camp Butner to be cleaned once a week. Units scheduling training on Camp Butner must take into account the number of personnel they have scheduled and utilize their S-4 to contract for additional chemical toilets and servicing, this contract should also include the servicing of Camp Butner's Chemical Toilets.

e) Grey and Black Water disposal: Camp Butner Training Center is located at the head waters for two large water reservoirs. Under the existing environmental guidelines in place from JFHQ-Environmental Office Camp Butner is not authorized to construct any soakage pits or allow any run off from field equipment (MKT's, Field Showers, etc). Using units must utilize their S-4 to coordinate the procurement and servicing of a grey/black water capture tank before occupying training areas.

f) Solid Waste Disposal: Camp Butner has dumpsters located on the training facility, which using units may utilize for trash disposal. However, large units occupying the training areas for long periods of time must coordinate through their S-4 for servicing of dumpsters. In order to minimize wildlife from entering field kitchen areas, units that are feeding from MKT's must contract for the servicing of any dumpsters in which edible waste will be collected, or they must utilize internal assets to dispose of waste at offsite facilities.
