North Carolina National Guard Environmental Policy Statement

The North Carolina National Guard (NCNG) is a dynamic organization comprised of men and women committed to defending and protecting the American public, both domestically and abroad. Readiness is a top priority. Our ability to accomplish our mission is enhanced through adequate personnel strength, training proficiency and equipment serviceability. These activities occur at various locations within the State of North Carolina.

The NCNG is committed to environmental stewardship at these facilities and lands. A sustainable training environment is critical to our continued utilization of these resources.

Through sound environmental management the NCNG is committed to:

- Maximize the availability of training lands and facilities to enable training of Soldiers and Airmen.
- Continually improve management of our environmental programs and our performance.
- Prevent pollution of our land, water and air to the extent that our mission allows.
- Maintain compliance with all applicable Federal, State and local environmental laws and regulations, and other requirements to which we subscribe.
- Consider environmental requirements and impacts early in our force management, training, equipment fielding and construction planning processes.

Adherence to these commitments and the ISO 14001 standards is vital to NCNG readiness and mission accomplishment.

A handwritten signature in black ink, appearing to read "G. Lusk", written over the printed name and title.

GREGORY A. LUSK
MAJOR GENERAL (NC), NCARNG
Adjutant General
