

## HMMWV EGRESS ASSISTANCE TRAINER (HEAT)

LOCATION	Located on Keeton Trail between the VCOT and EST (Heavy).
DESCRIPTION	The Camp Butner Training Center has two (2) HEAT trainers on site. The HEAT trainer increases the situational awareness of vehicle rollover by permitting the instructor to observe driver performance and reaction to emergency conditions without requiring the use of an actual vehicle. The device reinforces the importance of seat positioning, wearing seatbelts, demonstrating the feeling of being disoriented and the actual effort required to execute rollover procedures. The trainer allows individuals and crews to rehearse and physically execute the necessary steps required to survive a vehicle rollover.
LATRINE FACILITIES	Yes. Located between the EST (Light) building and the Multipurpose building.
CLASSROOM FACILITIES	Yes. Multipurpose Building.
COMMUNICATIONS TO RANGE CONTROL	Establish communication with Range Control when occupied and maintain communications on the hour.
RESTRICTIONS	<p>Only instructor trainers qualified and licensed per TC-55, HEAT, paragraph 316 may operate the simulator. HEAT operators must be trained by certified personnel.</p> <p>HEAT Instructor/Operators (I/Os) will be certified in accordance with TC-55 HEAT, paragraph 312. Qualified instructor/Operators (I/Os) will possess a DD Form 1902 (Certificate of Qualification) prior to operating the HEAT.</p> <p>See HEAT SOP for additional restrictions.</p>
REMARKS	Heat I/Os will train personnel IAW TC-55, HEAT.
